

Think Healthy Calves, Think MSD Animal Health

ONE SHOT
to all classes of cows
3 weeks before calving

For the prevention
and treatment
of cryptosporidiosis

For the relief of pain,
fever and inflammation
in cattle

Vaccination of cattle
or calves prior to the
Salmonellosis risk period

In-clinic POS Display Competition

Win one of 7 Nespresso Coffee Machines* for your clinic

It's almost calving season and MSD AH would like to assist you in teaching your clients about the importance of calf health. Join in the fun and create a calf health display in your clinic and you could win a Nespresso coffee machine. The display should incorporate the Rotavec® Corona piñatas, Halocur® skittles and Finadyne® TD transfers. Bonus points will be given for incorporating Salmonella as one of the causes of calf scours. Contact your MSD AH Territory Manager if you would like to enter.

Competition Criteria:

- The competition runs from 1st May to 16th June 2017 and is open to Vet Clinics that sell Rotavec Corona
- The display must be created by your vet clinic staff
- Photos of your display need to be submitted to MSD by your Territory Manager by the close of business on the 16th of June 2017
- Judges will base their decision on creativity and the display's ability to highlight the key points farmers need to remember to raise healthy calves
- The Judges decision is final
- Winners will be notified in the 1st week of July 2017.
